

Sae Hee Wilson

Placentia, CA
saeheewilson@gmail.com

Senior AP professional with 8 years in full-cycle accounts payable, finance systems, and process automation for global, multi-entity organizations. Combines team leadership and cross-functional partnership with deep Coupa/NetSuite reconciliation and automation tooling that scales AP and drives process improvement.

EXPERIENCE

Tanium Inc., Emeryville, CA | *Senior Accounts Payable Accountant*

NOV 2021 - PRESENT

- Own full-cycle AP for a global, multi-entity organization: invoice approvals, vendor onboarding, payment-method compliance, payment runs, and reconciliations across 10+ subsidiaries.
- Own procurement-to-NetSuite reconciliation, with several years in Coupa before leading the 2025 migration to Zip. Reconcile all payments made outside the procurement tool and ensure accurate GL recording.
- Main point of contact for procurement-system implementation and testing, validating tax configuration, invoice processing, and integration issues across AP, Corporate Systems, and GL.
- Develop and maintain SOPs and a centralized knowledge base for Coupa, Zip, and NetSuite processing, used as the connective layer for the company's enterprise AI deployment.
- Built an AI-driven automation framework in Python and PowerShell: 25+ production tools spanning journal entries, reconciliations, invoice triage, and payment-run prep, extending earlier work in Power Query, Power Automate, and Excel macros.
- Train AP specialists on reconciliation and invoice tooling, and manage 1099 reporting via Avalara and annual compliance filings for France and Japan.

LT Foods Americas, Cypress, CA | *Accounts Payable Supervisor*

NOV 2018 - OCT 2021

- Promoted from file clerk to supervisor within two years, demonstrating growth, initiative, and leadership capability.
- Led a distributed team of four (two US specialists, two India-based processors) handling 2,000+ invoices monthly in SAP and Concur; championed one processor's promotion to AP Lead, a rare advancement in the company's culture.
- Ran daily MIRO / goods-received-vs-invoice-received (GR-IR) reconciliation in SAP, reconciling inventory received not billed against vendor invoices for a physical-product operation.
- Led transition from paper checks to ACH, achieving a 90% digital adoption rate and improving payment efficiency.
- Managed credit card and bank reconciliations and enforced internal controls, ensuring financial accuracy and audit-ready documentation.
